OBJECTIVE

Seeking a challenging position in an organization where I can learn new skills, expand my knowledge and leverage my learnings.

EXPERIENCE

BUSSINESS CODE PRIVATE LIMITED   -

Web Developer

I have been working on Business Code as a Web developer. Here I have developed many websites like thier Manusia AI projects for that company.

I have also developed the Dashboard single page application and social media page as a freelancing.

EDUCATION

Anna university BIT Campus, Trichy   2020
Bachelor Of Engineering - Computer science

60

Little Flower Higher Secondary School - Kumbakonam   2016
Higher Secondary

72

Little Flower Higher Secondary School - Kumbakonam   2014
SSLC

80

ACADEMIC PROJECT

HYBRID MOBILE APPLICATION AND INTEGRATION

Developed a single application by using React Native and Javascript that handle both IOS and Android OS. The performance of framework increased due to no need to convert according to the OS such as GPU frequency, CPU load, Memory usage and power consumption.

PROJECTS

Bussiness Code Private LIMITED | Web Developer

I have developed responsive portfolio blog. It contains all my details. You can easily download my CV.

I have developed a manusia AI project. Manusia Ai is a drone technology used by agriculture on website.

Been a class representative for 3 years at college. Event co-ordinator in the department symposium.

Languages

English

Tamil

Interests

Web Developing

App Developing

Designing

Reading books

Activities

Meditation

Health Fitness

I have developed a food order application in which you can easily order food online.
By looking at the types of popular dishes on this website, and you can see what special products are available today. You can also see how the customers reviews.

I have developed the Dashboard single page application. In this application you can see how many members are working in a company, how many projects are going on in that company and how much is the company's annual income.
